Index of Subjects

Acid gels, rheological properties, 591
Adrenergic receptors, effect on milk ejection, 315, 627
Amino acids, ^{15}N enrichment in plasma proteins in cows, 367
Aminopeptidase P, from *Lactococcus lactis* subsp. *cremoris*, purification and characterization, 399
Aspartyl proteinase, acid, of *Penicillium roqueforti*, 105

Bacillus species, psychrotrophic and mesophilic, temperature characterization, 261
Bacillis cereus, diarrhoeal toxin production, 551
Bioactive peptide, from bovine β-lactoglobulin, effect on smooth muscle, 149
Body condition, cows, effect on milk, 207
Butter, physical properties, effect of cows' diet, 181

Calcium secretion, goat mammary gland, effect of cortisol, 633
Calcium soaps, of unsaturated fatty acids, effect on digestion, milk composition and butter properties, 181
Capillary electrophoresis
in study of casein proteolysis, 221
in study of caprine casein polymorphism, 515
in study of ovine casein polymorphism, 525
Casein
^{15}N enrichment in cows' milk, 367
hydrolysis and phosphopeptide release, 505
proteolysis, 221
κ-Casein
A and B, genotyping by SSCP analysis, 535
A and C, association with chymosin, restrained molecular dynamics study, 299
B, residues 130–153, conformation study, 377
hydrolysis during renneting and rheological properties, 541
Casein curds, mineral acid, lactic and rennet, water-holding capacity and mechanical properties, 581
Casein micelles, EDTA-induced dissociation and foaming, 495
Caseins
caprine, polymorphism, 515
lactic, manufacture, heavy coagulum formation, 69
ovine, polymorphism, 525
Cheese
bitterness and hydrophobic peptides, 289
Cheddar, identification of peptides in water-soluble fraction, 433
detection of *Clostridium tyrobutyricum* cells, 311
free fatty acid content, 445
Grana Padano, phosphopeptides during ripening, 601
Measurement of lipase activity, 465
Parmigiano Reggiano, lactic acid bacteria isolated during ripening, 305
Reblochon de Savoie, effect of milk composition and clotting characteristics, 157
Cheese curd, available water, effect of pH and time, 123
Cholesterol, serum, effect of yogurts, 453
Chymosin, association with κ-caseins A and C, restrained molecular dynamics study, 299
Colostrum, camel, mineral content, 471
Cortisol, *see* **Oxytocin**
Curds, *see* **Casein curds**

Dairy cows
effect of body condition on milk, 207
effect of daily herbage allowance on milk, 621
laminitis in (review), 475
non-insulin- and insulin-mediated glucose uptake, 341
milk ejection, 315
milk yield, 173, 487
plasminogen genetic polymorphism, 637
post-milking standing time and feed availability, 617
Dairy products
content of folate and folate-binding protein, 239
content of lactic acid bacteria in artisanal products, 409
Dairy sheep, machine milking, 163
Diarrhoeal toxin, low temperature production by *Bacillus cereus*, 551
DNA, genomic, isolation from milk samples, 231

ELISA
for measuring plasminogen, 77
for measuring aspartyl proteinase, 105
Emmental, juice, simulated, for propionibacteria growth, 573
***Escherichia coli* O157**, detection in milk and ice-cream, 87
Evaporators, falling film, use with whole and skim milk, 57

Fatty acids
free, determination in cheese, 445
unsaturated, calcium soaps of, effect on digestion, milk composition and butter properties, 181
Feed availability, and post-milking standing time in cows, 617
Folate and folate-binding protein, content in dairy products, 239
Folate-binding protein, *see* **Folate**

Genetic rescue, by bovine α-lactalbumin transgene in α-lactalbumin-deficient mice, 145
Glucose, uptake, non-insulin- and insulin-mediated, 341
Growth hormone gene, and milk production, 47

Heavy coagulum, formation in lactic casein manufacture, 69

Image analysis, applied to micrographs of stirred yogurts, 135
Insulin, control of glucose uptake in cows, 341

α-Lactalbumin-deficient mice, expression of bovine α-lactalbumin transgene, 145
β-Lactoglobulin, bioactive peptide from, effect on smooth muscle, 149
Lactic acid bacteria
in artisanal dairy products, 409
isolated from Parmigiano Reggiano cheese during ripening, 305
Lactic casein, *see* **Casein, lactic**
Lactic culture, capsule-forming, non-ropy, for modifying rennet curd, 115
Lactobacillus species, cell surface proteinase activities, 561
Lactococcus lactis* subsp. *cremoris, animopeptidase P content, 399
Laminitis, in the dairy cow (review), 475
Leuconostoc mesenteroides* subsp. *mesenteroides, requirements for growth in milk, 95
Lipase, activity in bovine and caprine milk, 465

Machine milking, of dairy sheep, udder anatomy, milk ejection, milking characteristics, 163
Mammary gland
bovine, distribution of myoepithelial cells, 197
goat, effect of cortisol on onset of calcium secretion, 633
mouse, secretory epithelium, 39
Management, and mortality in heifers, 1
Mastitis, in Danish organic dairy herds, 23
Micelles, *see* **Casein micelles**
Microbiological monitoring, of milk for cheesemaking, 271
Milk
bovine, foaming properties, 495
high quality, microbiological monitoring, 271
plasmin and plasminogen content, 77
effect of stage of lactation, milk protein genotype and body condition, 207
bovine and caprine, isolation of genomic DNA, 231
measurement of lipase activity, 465
camel, mineral content, 471
ovine, renneting properties, 355
Milk composition, bovine
effect of calcium soaps of fatty acids, 181
effect of daily herbage allowance, 621
effect of fish oil supplements, 173
effect of Reblochon de Savoie cheese, 157
Milk ejection
of dairy sheep, 163
of cows, inhibition by oxytocin receptor blockade, α-adrenergic stimulation and unfamiliar surroundings, 315
lack of central inhibition by naloxone and adrenergic blocking agents, 627
Milk fat globules, binding of *Staphylococcus aureus*, 253
Milk powder, examination by laser scanning microscopy, 423
Milk processing characteristics, and daily herbage allowance, 621
Milk production traits, 47
Milk protein
genotype, effect on protein composition and renneting properties, 207
polymorphism and milk production, 47
Milk samplers, for estimating somatic cell counts, 13
Milk yield, of dairy cows
effect of fish oil supplements, 173
effect of once and twice daily milking, 487
Minerals, in camel milk and colostrum, 471
Monoclonal antibodies
use in sandwich ELISA, 77
use in immunohistochemical techniques, 197
Mortality, in dairy heifers, and management practices, 1
Myoepithelial cells, distribution in bovine mammary gland, 197

Neutrophils, function in sheep, effect of whey and whey proteins, 281

Oxytocin
effect on mouse mammary epithelium, 39
and prolactin, suppression of cortisol response in sheep, 327
Oxytocin receptor, blockade, effect on milk ejection, 315

Parathyroid hormone-related protein, and onset of calcium secretion in the goat, 633
Phosphopeptide release
and casein hydrolysis, 505
during ripening in Grana Padano cheese, 601
Penicillium roqueforti, acid aspartyl proteinase content, 105
Peptides
hydrophobic, and bitterness in cheese, 289
in water-soluble fraction of Cheddar cheese, 433
Plasma proteins, in cows, ^{15}N enrichment of amino acids, 367
Plasmin, *see* **Plasminogen**
Plasminogen
and plasmin, in milk, measured by ELISA, 77
genetic polymorphism in dairy cattle, 637
Polymerase chain reaction
detection of *Clostridium tyrobutyricum* cells in cheese, 311
detection of *Escherichia coli* O157 in dairy products, 87
use of genomic DNA from milk, 231
with SSCP analysis, genotyping of κ-caseIn A and B, 535
Prolactin, *see* **Oxytocin**
Propionibacteria, simulated Emmental juice for growth, 573
Proteinase(s), cell surface, in *Lactobacillus* genus, 561

Rennet curd, modification by lactic culture, 115
Renneting
of ewes' milk, 355
and rheological properties, 541
Rheological properties
and κ-casein hydrolysis, 541
in acid gels at small and large deformations, 591

Scanning laser microscopy
for examination of rennet curd, 115
for examination of whole milk powder, 423
Somatic cell counts, estimation using milk samplers, 13
Stage of lactation, effect on bovine milk composition, 207
Staphylococcus aureus, binding to milk fat globules and penicillin-G resistance, 253
Stress, in sheep, cortisol responses, 327

Triacylglycerols, serum, effect of yogurts, 453

Udder
characteristics, and once or twice daily milking, 487
of dairy sheep, 163

Water, distribution in cheese curd, 123
Water-holding capacity, and mechanical properties in casein curds, 581
Whey, *see* **Whey proteins**
Whey proteins
and whey, effect on neutrophil function in sheep, 281
bovine, caprine, ovine, preparative-scale fractionation, 459

Yogurt, and bifidus yogurt, effects on serum cholesterol and triacylglycerols in rats, 453
Yogurt, stirred, image analysis of electron micrographs, 135
